I can't express to you enough how much I appreciate your support and excellent service through both my house buying projects!

I can honestly say if it wasn't for you and your encouragement and excellent advice to buy something I wouldn't be living in my own place right now. I hope it is a good feeling to know you have had a huge impact and improved someone's life.

Thank you again and I will be recommending you to everyone I know - in fact I already have.

For a person like me it would be easier to write about bad service examples; they make for much better stories. However, it is worth pointing out the good examples though, and you are one of them.

In these critical times you have shown a prompt, knowledgeable and speedy service for me in order to get my dreams into reality. What surprises me the most is that the deal was done without any complications and in record time and you guys never even saw my face. Rest assured that the bells about your good service will ring for a long time.

Thanks again to all!

To a wonderful team at Australian Finance Centre.

Thank you so much for your wonderful help and professionalism over the last few months. We have moved into our dream home and we have all of you to thank. You all made the 'house buying' process such an easy one and we really appreciate it! I will be recommending your company to everyone I know! Thank you again!

P.s. We got engaged the night the house settled!

"My loan is now settled with all my debt consolidated into my mortgage. It is great to now have one loan I need to pay and not multiple scattered all over the place. I find myself in a situation now where once all my bills are paid I have money left over every month to actually have a social life back and I have Australian Finance Centre to thank for this.

Sam & Paula Cotroll (Mortgage Client)

The overall service, approach and organisational philosophy truly blew us away, the girls in processing are very efficient and professional throughout the mortgage process and we still hear from them. We place every faith in AFC and their business partners, we would recommend your services to any of our family and friends - keep up the good work.

William Howard & Nikki Godfrey (Mortgage Client)

We have been trying to get out of the rental trap for the past 12 months and thanks to Australian Finance Centre, we now own our own home. We researched the internet and applied on numerous occasions but were unsuccessful. Australian Finance Centre took the time to discuss with us the mortgage lending industry and the process of buying you home, especially our first home. We were kept informed throughout the mortgage process and it seemed that all our worries were taking off our shoulders and onto Australian Finance Centre's shoulders. We have been in our home now for some weeks and think this is the biggest achievement in our lives so far - our home.

Many thanks, Will and Nik.

Adam & Grace Shore (Mortgage Client)

Thank you very much for your service, it has been a fun journey and one that has meant that myself and Grace can continue to up the property ladder. Without your help, we would of never realised the options available to us and the flexibility we have within our mortgage loan, especially in paying down our mortgage faster.

Best wishes, Adam and Grace Shore.

Richard Bell (Mortgage Client)

Thank you very much for your help with this (finance), I would thoroughly recommend your company (Australian Finance Centre) to anyone looking for finance. Once i get the move out of the way I will give you a call as you indicated you may be able to advise me in ways of reducing the tax that i pay.

Best regards, Richard.
