

Negotiate Your Debt

Negotiating Your Debt

We at Australian Finance Centre can offer our clients a new addition to our service... Negotiation of Your Debt! Business partners CMS (Credit Mediation Services)! CMS is a dynamic organisation who negotiate your debt on your behalf and specialise in assisting mortgage organisations in reducing our clients un-secured debts while we seek mortgage consolidation.

CMS pride themselves on the ability to reduce clients unsecured debts by 10% to as far as 95% off the original debt balance!

The benefits for you:

- Successful negotiation can increase the likelihood of your mortgage proposition moving to settlement;
- Often the mortgage costs are accounted for by monies saved in the negotiations;
- Can save an enormous amount of money;
- Increase the chance for the mortgage to settle;
- May save enough cash for a holiday, purchase of goods or put into savings.

Case Study 1

One of CMS's clients from Queensland experienced a period of unemployment and his credit cards remained unpaid, after some months he was served a summons to court from one bank and threats of legal action from the others. He consulted CMS and they were able to halt legal action along with reducing his total bank credit cards from \$56,000 to \$18,000 saving him \$38,000!

Case Study 2

A client from NSW who was recovering from cancer treatment found herself in \$180,000 in debt, CMS was able to reduce her creditors down to \$38,000 which she duly paid and is now debt free.

- How long does it take?

Generally negotiations will take from a few days to 3 weeks to complete.
